

Facts about the cost of diapers:

- It takes an average of 90 diapers per week to keep a baby changed every one to three hours and a toddler every three to four hours.
- An average diapering length "diapering period" is 2.5 years or 130 weeks for a total of over 11,700 diaper changes!
- Disposable diapers cost an average of \$.35 per change.
- $\$.35 \text{ per change} \times 90 \text{ changes per week} = \31.50
- $\$31.50 \times 130 \text{ weeks of diapers} = \text{Total Cost of Disposable Diapers for one child of } \$4,095$
